

IT Sales - Computer Sales

Whether you need a single system, Exchange server, domain server or a full network, Brydan Solutions can help in the planning and implementation of your IT infrastructure expansion, or new equipment purchases, technology refresh, hardware rollout, software and licensing to keep you matched with your company's needs. Although not a stocked retail store we purchase direct from wholesalers, manufacturers and technology distributors to fulfill our clients requirements.

To assist in your technology purchases, Brydan Solutions offers a leasing program through Ingram Micro Leasing by VAR Resources. [Click here](#) to learn more about Brydan Solutions leasing program.
